

**Special Shetek Area Water and Sewer Commission Meeting with the Murray County
Commissioners**

September 27, 2016

Members Present: Trevor Humphrey, Jamie Thomazin, Harley Wahl, Jon Hoyme

Members Absent: Donna Kor

Others: County Commissioners: David Thiner, Bob Moline, James Jens, Gerald Magnus, Glenn Kluis; Travis Smith, County Attorney; Aurora Heard, County Coordinator; Heidi Winter, County Auditor

Meeting convened by County Board Chair Dave Thiner at 5:00 p.m.

Received and reviewed current Water Resources Administrator position and proposed new Water Resources Technician position. Deleted from the latter is any link to work related to the SAWS District.

It was shared that the time contributed to the sewer district was the cost of about \$3300 to Murray County.

Considerable time was spent reviewing a list of tasks covered by the Water Resources Administrator under the current job description and how these tasks would be covered going forward. This includes short term as well as future coverage on the longer term.

Short term, Jean C. will be the contact, Heidi W. will provide some additional assistance with financials and Laurie H. will help with communication. During this transition communication between commissioners, staff, and board will be crucial to make sure all of the bases are covered with no interruption of service to the residents.

The conversation was concluded and Commissioners moved on to other business.
